Congratulations! You are operating at the
Transformational Level of Accounting!

This means you are already at a super high level of comprehension and use of accounting in your business. You feel a high sense of control and confidence with your money. You've mastered many of the best bookkeeping strategies, but there's always room for improvement. In fact, most of the people who are performing at this level are doing so because they are committed to learning and continued education to improve their skills. To take the next step with yours, you probably aren't needing our DIY Course and could use Quarterly meetings to review and create strategy for growth
