

Sync BenchWorks Inventory with Xero Accounting Software

Get BenchWorks free for 30 days: getbenchworks.com

Try Xero free for 30 days: xero.com

**BenchWorks is an easy-to-use product management tool for artists and makers.
Xero is Beautiful Accounting Software.**

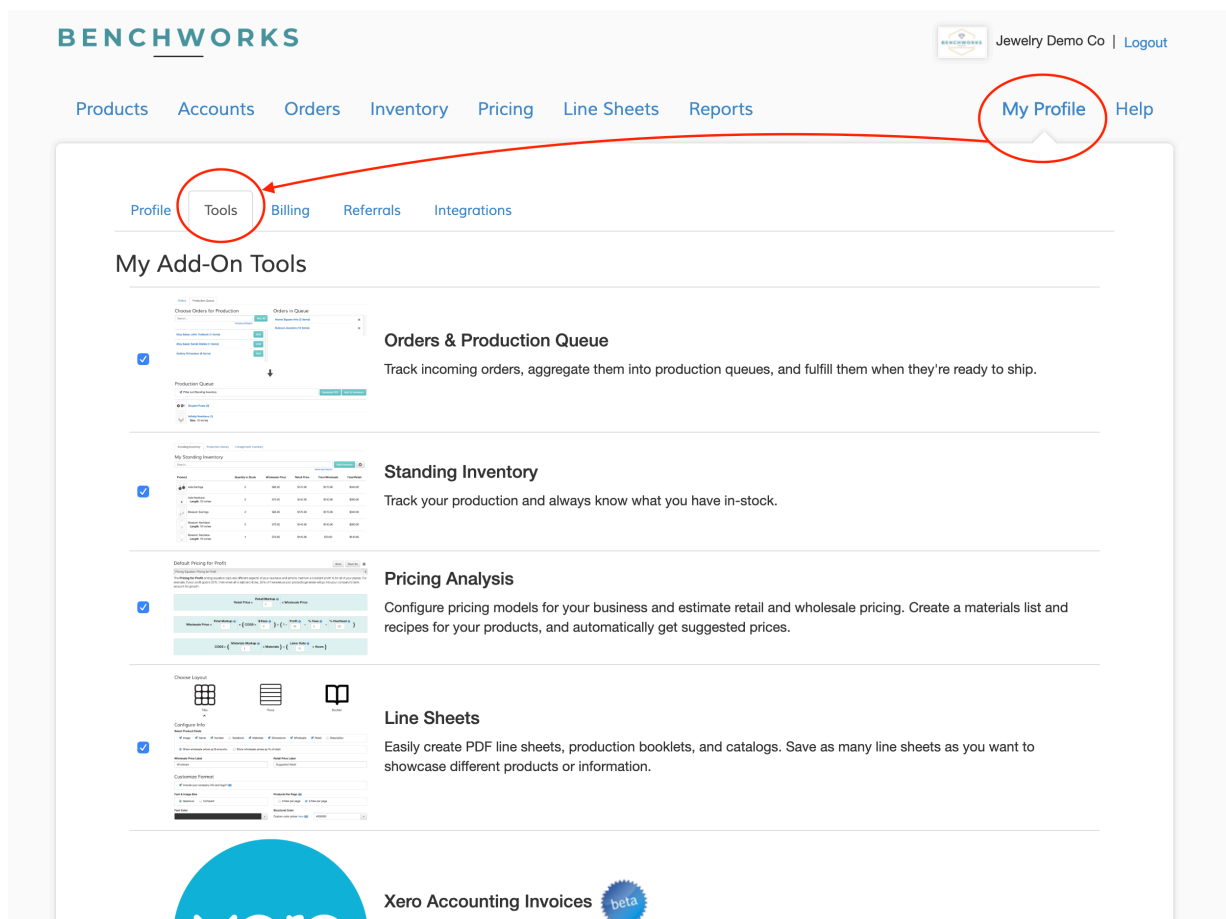

Goal:

Sync order invoices in BenchWorks to Xero Invoices to:

- email customers to get paid online
- match orders to deposits in your bank account

(Optional) If you use Materials Inventory in BenchWorks, you can also turn on the Cost of Goods Sold adjustment, to move the cost of your items sold from Inventory Asset to Cost of Goods Sold expense. This will create a Bill for the adjustment with each Synced Invoice.

Step 1: Turn on the Xero Integration in BenchWorks for the first time

My Add-On Tools

Orders & Production Queue
Track incoming orders, aggregate them into production queues, and fulfill them when they're ready to ship.

Standing Inventory
Track your production and always know what you have in-stock.

Pricing Analysis
Configure pricing models for your business and estimate retail and wholesale pricing. Create a materials list and recipes for your products, and automatically get suggested prices.

Line Sheets
Easily create PDF line sheets, production booklets, and catalogs. Save as many line sheets as you want to showcase different products or information.

 Xero Accounting Invoices 

1. Login to your [BenchWorks account](#).
2. Click on “My Profile”
3. Click on the “Tools” tab
4. Scroll down to tick the Check Box next to “Xero Accounting Invoices”
 - a. If you have [Materials Inventory enabled](#) under the Profile tab, then you can check to also “Create Xero Cost of Goods Sold report on sync” (optional). *
 - b. Click “Configure Xero Accounts.” This takes you to the Integrations tab.
5. Click the Pencil icon to edit.

Xero Invoices: (Revenue)
Retail Sales

To use the automatic COGS Inventory Adjustment for Sales Order Invoices, all Inventory Material Purchases in Xero must be recorded to Inventory Asset.

Xero Inventory: (Current Asset)
Inventory Asset

Xero Cost of Goods Sold: (Direct Cost)
Cost of Goods Sold

[Disconnect from Xero](#)

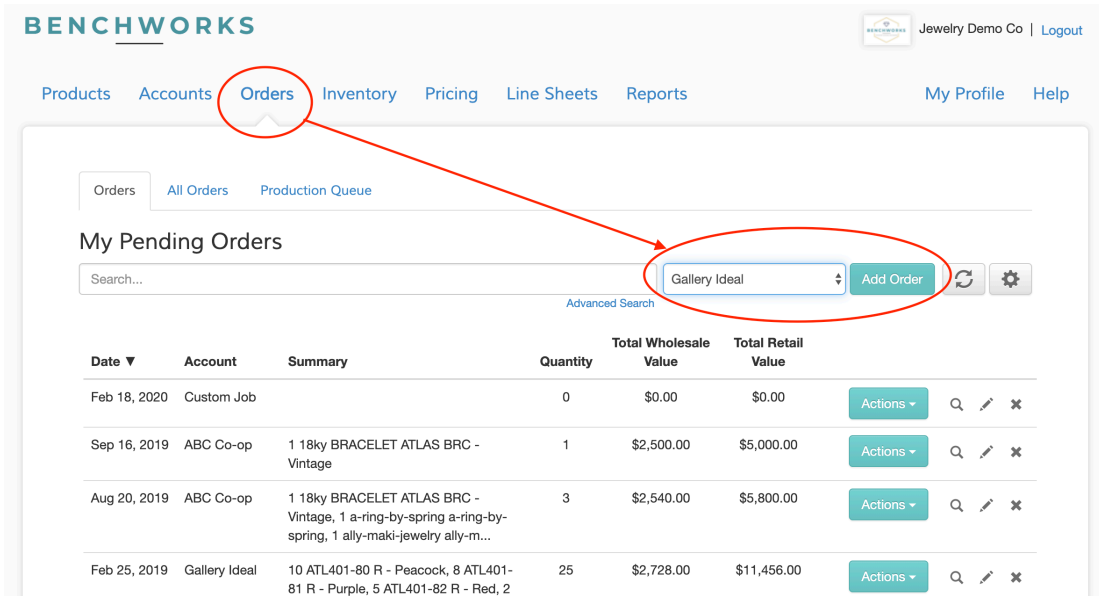

- a. Select the Revenue account where your Sales Income should go in Xero. If you have multiple Sales accounts in Xero, select the one used the majority of the time as the default. For example, if you have both Retail and Wholesale Sales accounts in Xero, select the account used most often for orders in BenchWorks.
 - b. If you have turned on the Cost of Goods Sold adjustment, select:
 - i. Xero Inventory Asset Account (example: Inventory)
 - ii. Xero Cost of Goods Sold Account (example: Direct Costs)
6. Click the “OK” button to save.

*Note: Only turn on the cost of goods sold report adjustment if you record the purchases of materials to an Inventory Asset account in Xero.

Step 2: Add an Order in BenchWorks

(Already have orders ready to sync? Skip to Step 3 below.)

Option 1: From the Orders Tab

1. From the Orders Tab, click on the “Actions” menu button next to the Account Order you want to sync to Xero.

2. Click the “Sync with Xero” button.
3. The order is now synced.

Step 4: View the synced Invoice in Xero:

The screenshot shows the BenchWorks interface with the 'Orders' tab selected. Under 'My Pending Orders', there is a table with columns: Date, Account, Summary, Quantity, Total Wholesale Value, and Total Retail Value. The table contains three rows of orders. For the August 20, 2019 order, an 'Actions' menu is open, and the 'View Invoice' button is highlighted with a red circle.

Date ▼	Account	Summary	Quantity	Total Wholesale Value	Total Retail Value	Actions
Feb 18, 2020	Custom Job	10 DR-0001 Droplet Posts, 10 DR-0002 Tiny Droplet Earrings	20		\$2,700.00	Actions ▼
Sep 16, 2019	ABC Co-op	1 18ky BRACELET ATLAS BRC - Vintage	1	\$2,500.00	\$5,000.00	Fulfill Order
Aug 20, 2019	ABC Co-op	1 18ky BRACELET ATLAS BRC - Vintage, 1 a-ring-by-spring a-ring-by-spring, 1 ally-maki-jewelry ally-m...	3	\$2,540.00	\$5,800.00	Split Order 17190 View Invoice

1. From the Orders Tab, click on the “Actions” menu button next to the Account Order that has been synced with Xero.
2. The “Sync with Xero” button has been replaced by the Invoice Number generated in Xero. Click on the button with the Xero invoice number.
3. This will take you to the Draft Invoice in Xero to further edit the invoice, Approve it and optionally email to your customer to receive payment online.
4. [Click here to learn about accepting payments online with Xero Invoices.](#)

Troubleshoot:

- Add a Contact Name to the Xero Invoice from a Generic Consumer account in BenchWorks. Example, we recommend Direct to Consumer customers are not created as one-off Accounts in BenchWorks; however, if you want to email the invoice to the specific customer or have record of their name in Xero, you can update this on the Xero Invoice.
 - i. From the Order in BenchWorks, click the “Actions” menu, then click on the Xero Invoice number button. This will take you to the matching Invoice in Xero.
 - ii. Click in the Contact Field to change what synced from BenchWorks. Type in the contact you wish to use to add or use an existing contact already in Xero.
 - iii. Confirm the Invoice details are correct.
 - iv. Click Save to confirm changes.

- Confirm the Xero Invoice has the right Tax Rate
 - i. From the Order in BenchWorks, click the “Actions” menu, then click on the Xero Invoice number button. This will take you to the matching Invoice in Xero.
 - ii. In the Tax Rate column, change the Tax rate if necessary to an in-state rate, or out-of-state tax exempt rate as needed.
 - iii. Click Save to confirm changes.
- Disconnect from Xero
 - i. From your Profile in BenchWorks, click on the Navigations tab.
 - ii. Click the “Disconnect from Xero” button.

FAQ:

Can I batch sync invoices from BenchWorks to Xero?

No, only individual invoices can be sent to Xero from BenchWorks.

Do invoices automatically sync with Xero?

No, only the invoices you select to sync with Xero will generate an invoice in Xero. The purpose for this manual sync is due to our integration with Shopify, which also has a direct integration with Xero. We don't want you to duplicate Sales Invoices, so you have control over which invoices sync and which ones don't.

What information from my BenchWorks Order syncs to Xero?

The following data is automatically synced from BenchWorks to Xero when the Sync button is pressed:

1. Account Name = Xero Contact
2. Invoice Date
3. Invoice Number
4. Item Code
5. Item Description
6. Account Category
7. Tax Rate

If I have multiple products on an invoice in BenchWorks, will it be a summary or detailed invoice with the items in Xero?

The exact items will populate in Xero. Therefore, if you have an invoice with multiple products sold, multiple line items with these product details will populate in Xero.

How do I know if the Cost of Goods Sold Adjustment was recorded?

If you have the Cost of Goods Sold report enabled, then in Xero, navigate to the Business tab and select “Bills to Pay.”

If needed, sort by the Date tab to bring the most recent bills to the top.

There should be a Bill with a contact of "COGS" and the BenchWorks Invoice number in the Reference.

Click on this bill to open it to confirm the cost of the item was appropriately recorded.
